# PRINCETON NURSERIES

Wholesale Price List FALL 1956

William Flemer's Sons, Inc.

Princeton, N. J. Telephone 1-1776

## FOREWORD

## "A PICTURE IS WORTH A THOUSAND WORDS"

Photographs taken August 15th

This has been an excellent growing season and the nursery stock at Princeton is second to none.

#### YOUR INSPECTION IS INVITED

Our shade, ornamental and flowering trees are THE BEST OBTAINABLE

In addition to a complete line of the standard kinds and sizes, we have an unusual collection of the finest new species and selections.

The very complete list of evergreens, shrubs, azaleas, vines, hedge plants, ground covers, etc., listed in this catalogue covers the most complete ornamental line available.

Make Princeton headquarters for your requirements.

Pease accept our cordial invitation to come to Princeton and look our nursery over.

Send your want list. WM. FLEMER, JR. WM. FLEMER, III GEO. S. HARRIS

## REMEMBER!

WE SPECIALIZE IN GROWING QUALITY NURSERY STOCK.

WE DO NO LANDSCAPING OR PLANTING JOBS.
WE ARE NOT YOUR COMPETITOR.

## PRINCETON NURSERIES

PRINCETON, NEW JERSEY

Princeton Products Are Quality Products

EARLY PURCHASE ASSURES BETTER ASSORTMENT

It is our constant aim to produce the finest stock that can be grown and to sell at reasonable prices.

## Conditions of Sale

## PRICES, ETC.

The prices named in this list cancel all previous lists. They are based on current market conditions and are subject to change without notice.

#### PLEASE NOTE

Because of the extremely high cost of filling orders for small quantities of assorted shrubs and many other small bare root items, we have found it necessary to discontinue our "1 to 9" price column on them. Where these items are required in lots of less than ten of a variety and size, prices will be twice the 10 to 49 rates.

## **TERMS**

## PRICES: F.O.B. NURSERY AT KINGSTON, N. J.

To those with an established record for prompt payment or with satisfactory references, we are glad to extend our regular terms at thirty days from date of invoice.

2 % DISCOUNT will be allowed for payment in ten days from date of invoice.

5% DISCOUNT will be allowed for CASH IN FULL WHEN ORDER IS PLACED, providing digging or delivery is scheduled for not less than thirty days from date of order.

Orders for shipment C.O.D. must be accompanied by a remittance for one-third of the amount to insure acceptance. These are our only terms and no salesman or representative is authorized to alter them in any way unless confirmed from the office in writing.

#### **CLAIMS**

All sales are made with the understanding that we shall not be liable in event of crop loss, or of damage from other causes over which we have no control.

We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted. Claims should be made promptly in writing on receipt of stock.

Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage, or delay in transit.

All orders booked are based on the distinct understanding that the purchaser agrees to the condition of sales as stated above.

#### SCHEDULE OF B&B CHARGES

The following charges are made to cover additional cost of balling and burlapping deciduous trees and shrubs that are not listed B&B. The size of ball for most stock is in accordance with the A.A.N. "Horticultural Standards" recommendations.

These charges are based on a carefully dug, solid ball of earth, laced with rope or wire, and handled according to the best nursery practice.

## TREES, SHRUBS AND SMALL TREES

Diam. of ball	Size	Estimated Weight	Each
10"	18/24"	30 lbs	
12"	2'/3'	45 lbs	1.15
13"	3/4'	60 lbs	
15"	4/5'	75 lbs	2.40
16"	5/6'	100 lbs	
18"	6/8'	150 lbs	4.25
21"	8/10'	225 lbs	6.00
24"	2" cal.	300 lbs	8.25

The above charges apply only F.O.B. NURSERY. We will be glad to estimate a delivered price based on the terms of delivery noted below.

Ball depth will normally be not less than  $60\,\%$  of the diameter, and in all cases is adjusted so as to encompass a maximum of the fibrous root system of the plant.

#### **BOXING CHARGES**

Length	12x15"	15x16"	17x20"	19x24"	23x28"	27x32"	32x36"
4'	\$1.40	1.60	1.90	2.40	2.60	3.00	2.60
6'	2.10	2.40	2.85	3.60	3.90	4.50	5.40
8'	2.80	3.20	3.80	4.80	5.10	6.00	7.20
10'	3.50	4.00	4.75	6.00	6.50	7.50	9.00
12'	4.20	4.80	5.70	7.20	7.80	9.00	10.80
14'	4.90	5.60	6.65	8.40	9.10	10.50	12.60

Packing charges are at cost and represent the actual cost of the material used in the operation. No charge will be made for loading bulk truck or car lots.

## DELIVERY SERVICE

Although we maintain and operate a number of trucks for delivery of our orders and for which a reasonable charge is made, it is very difficult for us to attempt to deliver the vast volume of material we produce and we strongly urge that our customers send their own trucks, or hire local trucks, to pick up their orders here at the nursery as soon as we send notification that orders are ready.

When you send your trucks for material, we will be very glad to load the stock carefully with our help and supply ample quantities of good damp packing material, without extra charge. We will handle the loads to the best of our ability and can even make arrangements to load your trucks in the evening, if necessary.

Be sure to bring tarpaulin or suitable coverings to protect the plants on the truck, so they will not dry out on the road.

If it is necessary for us to supply covering material and rope it will be charged for at cost.

DELIVERY CHARGES ARE NET AND DUE WHEN STOCK IS DELIVERED.

DELIVERING AGENT OR DRIVER WILL COLLECT THIS CHARGE WHEN DELIVERY IS MADE.

## "CARLOADS" AND FREIGHT SHIPMENT

With our own railroad siding connecting with the main line of the Pennsylvania Railroad and a daily pickup service on L.C.L. and express shipments, we are in a position to expedite shipment to you without delay. Consult your local agent for rates to Monmouth Junction, N. J., or write us and we will gladly take care of it for you.

## GUARANTEE OF GENUINENESS

We will send out healthy, thrifty stock, true to name. If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace free of charge such stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said stock.

### COME TO SEE US

If you come by rail, use Pennsylvania Railroad and get off at Princeton Junction. Call Princeton 1-1776. We will send a car for you

If you come by automobile our nurseries are on U. S. Highway No. 1, about ten miles northeast from Trenton. Watch for

our signs.

## NOTES IN EXPLANATION OF CATALOGUE

The figures following each variety indicate in feet the approximate height of that plant at maturity. Ample allowance has been made for the many physical factors that tend to modify the growth of plants in cultivation.

The botanical and common names are largely taken from the 1924 edition of "Standardized Plant Names." Changes in nomenclature according to the revised "Second Edition," which have not become generally familiar to the trade, are shown in parenthesis and cross-indexed for reference.

Our standard of grading all plants is based on a schedule which has been adopted by the American Association of Nurserymen.

To facilitate the handling of orders and to enable us to render you quicker and better service we desire where possible, especially in deciduous material, that orders be made in multiples of 10. Many varieties are tied in 10's when graded. Your cooperation will be appreciated.

ABELIA GRANDIFLORA—Glossy Abelia. Strong Plants, Evergreen, Blooms all summer.

3( )0	Unit P	rice in Qu	antities
	1-9

# Introducing the SHADEMASTER LOCUST

# PRINCETON UPRIGHT THORNLESS HONEYLOCUST

#### Plant Patent No. 1515

For many years there has been a growing need for new and better shade trees. We have been striving to produce a Thornless Honeylocust with all the characteristics which are so evident in the photograph on the opposite page, and to eliminate all of the faults common in ordinary Honeylocusts. We have painstakingly examined over 20,000 individual trees in this program. Our long effort has resulted in the development of what we and our visitors proclaim to be the FINEST THORNLESS HONEYLOCUST AVAILABLE.

We were assisted in our final selection by a large panel of expert professional arborists. (The Princeton Upright Thornless Honeylocust was for many years the famous Number 13 in our research program.)

It's outstanding characteristics are:

- 1-Straight, strong trunk
- 2—Ascending branches
- 3-Heavy, dark green foliage
- 4-Requires no staking
- 5-Rapid growth
- 6—Transplants easily
- 7—Freedom from diseases and insect pests
- 8-Drought resistance
- 9-Holds foliage late in the fall
- 10-Deep roots
- 11-Does not heave sidewalks
- 12—Grass will grow right up to the trunk
- 13-No leaf raking in the fall
- 14—Forms unbelievably symmetrical tops—a radical departure from other Honeylocusts

## SALES YARD SUGGESTIONS

A properly managed sales yard, or plant market, can be a very profitable operation.

The following suggestions are made to assist you in selecting popular quick-selling varieties and in handling them successfully in your establishment. We will be pleased to help you select the very best plants for your own particular location or requirements.

#### FLOWERING SHRUBS

Flowering shrubs established in pots or containers are easy to handle, solve your replacement problem, and give you a very long selling season. Moreover the plants steadily improve in appearance and fullness as the selling season advances. Pot as early in spring as possible.

In potting shrubs a No. 2 Cloverset, or similar sized pot is good for the average size shrub. Use a mixture of 1/3 fibrous peat, 1/3 loam or good top soil and 1/3 sand. Spread the roots evenly in the pot and firm the soil as the pot is filled. Leave a rim of pot 1 to  $1\frac{1}{2}$ " above the soil to facilitate watering.

After potting, soak well with a liquid fertilizer at about ¼ the strength the manufacturer recommends. Place potted plants in a lath house, shaded cold greenhouse, or in a well sheltered area. Shift plants and space out as foliage develops. In caring for all potted material, water thoroughly often enough to keep the soil moist and mellow, but definitely not wet and soggy. Apply liquid fertilizer once a month after growth starts.

Philadelphus lemoine	Lemoine Mockorange (dwarf)
Philadelphus virginalis	Virginal Mockorange
Prunus glandulosa pink	Pink Flowering Almond
Prunus triloba plena	Double Pink Flowering Plum
Rosa hugonis (Shrub-rose)	Golden Rose of China
Spirea bumalda Anthony Waterer	Anthony Waterer Spirea
Spira prunifolia plena	Bridalwreath
Spirea vanhouttei	
Syringa vulgaris	Common Purple Lilac
Syringa vulgaris alba	Common White Lilac
Syringa vulgaris hybrids	French Hybrid Lilacs
Vitex macrophylla	
Weigela Eva Rathke	Redflowered Weigela
Weigela rosea	Pink Weigela

#### VINES — Ideal for Potting

Euonymus radicans	Wintercreeper
Euonymus radicans	colorataPurpleleaved Wintercreeper
Euonymus radicans	vegetus Bigleaf Wintercreeper
Jasminum nudifloru	mWinter Jasmine

#### SHADE, ORNAMENTAL AND FLOWERING TREES

New housing has created a remarkable demand for shade and flowering trees. Sales yard operators can capitalize on this demand because potted trees are easy to handle, thrive after planting and can be sold throughout the entire spring season and on into summer. It is best to pot small sized trees for the cash and carry business. Large sizes require too heavy a container and will not go in or on a passenger car.

For potting small trees the No. 4 Cloverset pot, or its equivalent is a good size. Use the same potting soil mixture and procedure as for shrubs. After potting soak thoroughly with liquid fertilizer at ½ the manufacturer's recommended dilution.

Place potted trees under a high lath shade, or in a protected location and space out as foliage and branches develop. Stake slender or weeping trees with a light bamboo cane. Fertilize with liquid fertilizer once a month.

The following list of trees covers the best varieties for potting and the sizes recommended are easily re-established and handled.

## TREES — Ideal for Potting

Acer platanoides, $5/6'$ & $6/8'$
Acer platanoides schwedleri, 5/6' & 6/8'Schwedler Maple
Acer rubrum, 5/6'
Betula alba, 4/5' European White Birch
Crataegus mollis, 4/5'
Cole's Sunburst Locust Whips (Plant Pat. No. 1313)
Moraine Locust Whips (Plant Pat. No. 836)
Malus assorted, 4/5' & 5/6'
Platanus acerifolium, 5/6' & 6/8'London Planetree
Prunus Newport, 3/4'Purpleleaf Plum
Prunus subhirtella pendula, 4/5' & 5/6'Weeping Japanese Cherry
Prunus Kwanzan, 4/5' & 5/6'Double Pink Flowering Cherry
Quercus palustris, 5/6'
Salix elegantissima, 5/6' & 6/8'Thurlow Weeping Willow

## EVERGREENS AND OTHER BALLED AND BURLAPPED PLANTS

Balled and burlapped plants are of course "tailor made" for the plant market. They are in good demand and are easy to handle.

Display them under a lath house, or in a suitable partially

shaded or protected area. Cut the strings around the branches as soon as they are received. Heel the balls in neat beds of peat moss or saw dust. Moderately raised beds make the plants appear at their best. Label each plant individually as to variety and price.

As soon as active growth begins in the spring, spray every two weeks with a foliar feeding spray at  $\frac{1}{2}$  the manufacturer's recommended dilution, or inject the mixture into the balls with a root feeding needle. Plenty of nitrogen is necessary to maintain good foliage color in B&B plants growing actively.

The following list covers the most popular and profitable varieties.

## **Balled and Burlapped Plants**

Abelia grandiflora	Closey Abelia
Azalea amoena	
Azalea hinodegiri	
Azalea Kaempferi Hybrids	
Chamaecyparis plumosa	Plume Retinospora
Chamaecyparis plumosa aurea	Golden Retinospora
Ilex convexa	
Ilex microphylla	Little Leaved Holly
Juniper chinensis glauca hetzi	Hetz Blue Juniper
Juniper chinensis pfitzeriana	Pfitzer Juniper
Juniper hibernica	Irish Juniper
Juniper excelsa stricta	Spiny Greek Juniper
Kalmia latifolia	Mountain Laurel
Magnolia soulangeana	Saucer Magnolia
Mahonia aquifolia	Oregon Holly Grape
Taxus cuspidata	Spreading Japanese Yew
Taxus cuspidata nana	Dwarf Japanese Yew
Taxus media hatfieldi	Hatfield Yew (upright)
Thuja occidentalis globosa	Globe Arborvitae
Thuja occidentalis nigra	Dark American Arborvitae
Thuja occidentalis pyramidalis	
Thuja orientalis aurea nana (Golden Biota)	

Berckman's Golden Arborvitae

## A HELPFUL SERVICE

## WHAT SHALL I PLANT?

To assist in the proper selection of plant material for various conditions, uses and requirements, and to easily classify plants as to fruit, colors, and other characteristics, we refer you to the following lists.

All plants recommended are offered in this calalogue and the use of this reference will enable you to quickly and easily arrive at the proper variety list to cover your needs for any special or unusual requirements.

## For a Quick-growing Screen

#### TREES

Acer dasycarpum
Chamaecyparis pisifera and
varieties
Picea excelsa
Pinus strobus
Pinus sylvestris

Populus in variety Pseudotsuga douglasi Salix in variety Thuja occid. pyramidalis Thuja occidentalis nigra Tsuga canadensis

#### **SHRUBS**

Eleagnus angustifolia Euonymus bungeanus Ligustrum ibota Ligustrum ovalifolium Lonicera in variety Photinia villosa Physocarpus opulifolius Rhamnus frangula Viburnum lantana Viburnum lentago

## For a Formal Clipped Hedge

#### TREES

Acer campestre
Acer ginnala
Carpinus carolinianum
Crataegus cordata
Crataegus crusgalli
Crataegus oxycantha

Picea excelsa
Pinus strobus
Taxus in variety
Thuja occidentalis and
varieties
Tsuga canadensis

#### SHRUBS

Berberis thunbergi Buxus sempervirens Euonymus alatus Euonymus alatus compactus Euonymus radicans vegetus Ilex crenata bullata Ilex crenata microphylla Ligustrum ibolium Ligustrum ovalifolium Pyracantha coccinea lalandi Rhamnus cathartica Rhamnus frangula

## For an Informal, Flowering or Fruiting, or Evergreen Hedge

Berberis in variety
Cydonia japonica
Deutzia gracilis
Deutzia lemoinei
Euonymus patens
Forsythia spectabilis
Hibiscus syriacus
Juniperus pfitzeriana
Juniperus hetzi
Lonicera (bush forms)
Mahonia aquifolia
Philadelphus coronarius
Philadelphus lemoinei
Rhodotypos kerrioides

Rosa hugonis
Rosa rubiginosa
Rosa rugosa
Spirea bum. Anthony Waterer
Spirea thunbergi
Spirea Van Houttei
Sorbaria aitchisoni
Syringa alba
Syringa vulgaris
Taxus browni
Taxus hatfieldi
Viburnum dentatum
Viburnum lantana
Viburnum tomentosum

## For a Wet Location

#### TREES

#### Evergreen

Chamaecyparis thyoides Thuja occidentalis and varieties Tsuga canadensis

#### Deciduous

Acer dasycarpum and Types
Acer rubrum
Amelanchier canadensis

## Trees for Avenues and Streets

#### Habit — Tall, formal and heavy

Acer platanoides
Acer saccharum
Liriodendron tulipifera
Platanus orientalis
Quercus rubra
Tilia americana
Tilia tomentosa

## Habit — Tall, medium to light textured

Acer dasycarpum
Acer rubrum
Ailanthus glandulosa
Fraxinus americana
Fraxinus lanceolata
Ginkgo biloba
Gleditsia triacanthos inermis

Quercus coccinea Quercus palustris Ulmus americanum

## Habit — Medium height for narrow, residential street

Acer campestre
Acer plat. columnare
Betula alba
Celtis occidentalis
Cercidiphyllum japonicum
Koelreuteria paniculata
Liquidambar styraciflua
Phellodendron chinense
Prunus Kwanzan
Prunus yedoensis
Sophora japonica
Sorbus aucuparia
Tilia cordata

## For Seashore Locations

#### TREES

Acer pseudoplatanus Amelanchier canadensis Ilex opaca Nyssa sylvatica Pinus thunbergi Plantanus acerifolium Populus alba bolleana Populus eugenei

## For Seashore Locations

#### SHRUBS

Aronia arbutifolia
Clethra alnifolia
Eleagnus angustifolia
Eleagnus umbellata
Hibiscus syriacus
Hydrangea Otaksa

Juniperus horiz. Bar Harbor
Juniperus horiz. plumosa
Ligustrum ovalifolium

Myrica pennsylvanicum
Prunus maritima
Rhus species
Rosa rugosa
Rosa blanda
Rosa wichuriana
Syringa vulgaris
Tamarix species
Viburnum dentatum

## SPECIAL OFFER - ASSORTED SHRUBS

Our selection includes all desirable varieties for landscape plantings.

Many of our customers have asked us for assorted shrubs where the varieties do not have to be specified. We are, therefore, offering two groups of shrubs this season. The varieties used will naturally be made up of items that we have in good supply at the time.

	100 or more	1000 or more
GROUP A—Shrubs, 2 yr. Average 2 ft. or more, including many good ornamental varieties of Cornus, Deutzia, Spirea, Lonicera and others.		.35
GROUP B—Shrubs, 3 yr. Average 3 ft. or more, including many good ornamental varieties as above		.40

We may also from time to time have special offers of assorted SHADE TREES, SMALL EVERGREENS, or other items. Consult us first and take advantage of the savings involved.
